

#AROMATES : trois saisons de musiques en syzygies et synesthésies
Three seasons of syzygic and synaesthetic music
(description in construction, last updated 2023/03/11)

Three seasons of #AROMATES ([Sepia-blue Songs](#), [Coruscant Crumbs](#), [Persistent Perfumes](#)) have been produced as a music compilation during the dreadful COVID interlude. They form a multisensory musical journey, with synesthesia and syzygy on: #music, #fantastic/science-fiction, fragrance, food, colors, elements, philosophy, animals, books, physics, mathematics, boats, water forms, etc. An online track listing is available:

[http://www.laurent-duval.eu/Share/Music/00 AROMATES-Synesthesies-Syzygies.pdf](http://www.laurent-duval.eu/Share/Music/00%20AROMATES-Synesthesies-Syzygies.pdf)

In quite a structuralist manner, each tune is classified in a **S-E-T: Season/Episode/Track**. A Season is a collection of Episodes, which is a collection of musical Tracks. All of them are meaningfully connected through lyrics, harmony, tune, album, band name, etc. For each episode in a season with the name of some *aromates* (aromatics/herbs), say **SALT**, singers or bands were chosen according to their first letter, #OULIPO style. It could have been, for **SALT: STRAVINSKY**, Igor; **Ange**; LOURAU, Julien and **TIERSEN**, Yann. A typical folder includes a playlist, a text list, a specific picture, and MUSIC, with files written as follows:

```
01_SSS_Stravinsky-Igor_Grishka.mp3
02_AAA_Ange_Demon.mp3
03_LLL_LOURAU-Julien_Deuterium.mp3
04_TTT_TIERSEN-Yann_La-valse-des-monstres.mp3
```

For instance, the eighth (8th) Track of Episode five (V) in the 2022 Season three (3) of #AROMATES (called "ROZEMARIJN pruit igoe") is from Australian post-rock band IIAH: "Kintsugi". It can be coded as s03e05t08, and is located in:

```
2022_AROMATES-s03_Persistent-Perfumes\2022_AROMATES-s03e05_ROZEMARIJN-pruit-igoe\08_III_I
IAH_Kintsugi.mp3
```

#Music includes traditional, folk/song, progressive rock, post-rock, metal, jazz, classic, modern classic, disco/electro and unclassified stuff. Some favorites are well-represented, sometimes under avatars (EST-Esbjörn Svensson Trio, Pink Floyd, Radiohead, Erik Satie, Oiseaux-Tempête, Philip Glass). The two foremost absents were reintegrated in this "Dash Edition". First: Porcupine Tree, yet fully present in the rest as a watermark. #AROMATES is a mirror of their syzygic et synaesthetic song: [Time flies](#) (2009, The Incident, with "pepper" as an aromate). And second as well: BadBadNotGood or BBNG, with [Signal from the noise](#) (2021, Talk Memory).

#FANTASTIC/SCI-FI is pervasive: the three seasons are reminiscent of [Brian Aldiss Helliconia trilogy](#) and of David Lynch *Twin peaks*. Other references to Blade Runner (P. K. Dick, Ridley Scott), 2001 A space odyssey (A. C. Clarke, S. Kubrick), Dune, Earthsea (Ursula Le Guin). H. P. Lovecraft's world, Asimov's I robots, The Twilight Zone, The Prisoner, Stalker (Arkady & Boris Strugatsky) or Edgar Allan Poe can be spotted.

For those having an eye for the finest details, all the other connections salute you.
